

# NEW Tribal Technology Certification

## Empower Your Technology Career with Two NEW Tribal Technology Certifications!

Boost your career by earning a credential unique to the tribal technology community.

Learn from industry experts as you gain the unique insights, tools and technology practices required for the highest level of success within tribal government, health, or enterprise environments.

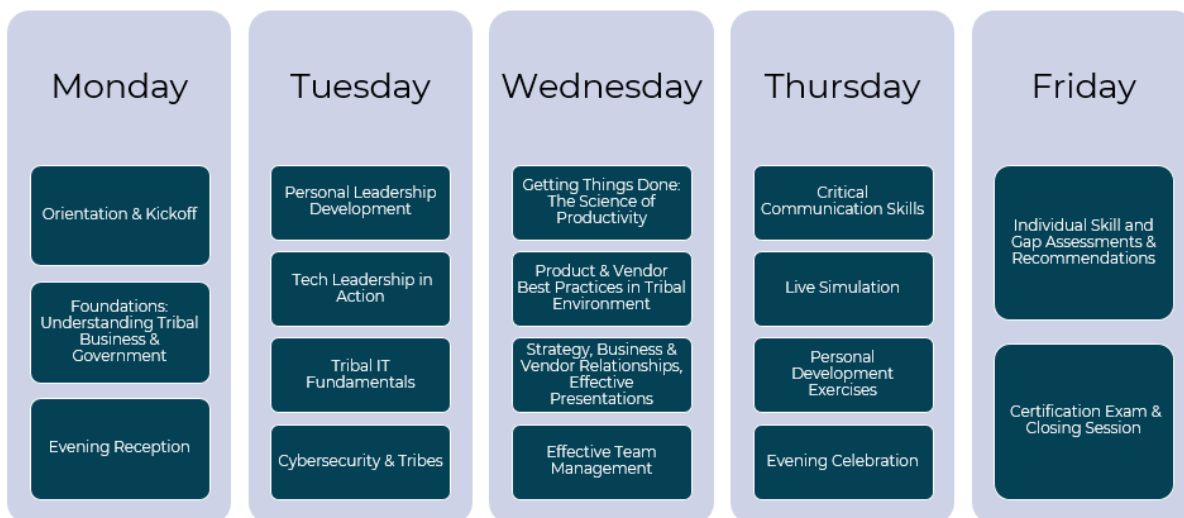

### Certified Tribal Technology Professional Certification (CTTP)

Designed to give anyone looking to succeed or advance in technology within a tribe or tribal enterprise the unique tools, connections, practices, understanding and keys to becoming more successful in moving their tribe or tribal enterprise forward while boosting their own career opportunities.

#### CTTP Program Overview

After registration and the initial assessment, this is a sample of what a week in the CTTP program could look like. \*Note this is subject to change

## Certified Tribal Technology Professional Program

## Certified Tribal Technology Leader Certification (CTTL)

Designed to strengthen and boost the leadership skills that are vital to a tribal technology leader's success in managing limited technology resources while leading their team and tribe forward.. CTTL is for someone either already in a leadership role, or an individual looking to move into a leadership role. Advance your tribe or tribal enterprise to greater success by elevating your own critical technology leader skills such as: executive presentations, team building, business relationship management and implementing and engaging in a winning technology strategy.

### CTTL Program Overview

Below is a sample of what the CTTL program could look like. \*Note this is subject to change

## Certified Tribal Technology Leader Program
